Professional Pattern Grading for Women's, Men's and Children's Apparel (Modern) is a good choice to add to your reading list.Q: cannot access property declared in constructor I am working on a project that uses Prism which is a MVVM framework. My problem is that my View has several types of information. The view is composed of several usercontrols which are also composed of a header with a lot of text and the information itself. I need all of that text to be able to dynamically change. On initialization, the view is created and my header is displayed. private async void init() { this.InitializeComponent();
