Psychotropic medication use during pregnancy is associated with both short-term and long-term negative outcomes for the mother and the fetus. The most common adverse effects are not directly related to the antipsychotics themselves but rather to common pregnancy complications. The goal of this article is to review the existing literature on the associations between antipsychotics and adverse pregnancy outcomes. We identified 14 studies that have found no association between first trimester antipsychotic use and preterm birth or low birth weight, 10 of which included more than 5000 women. Among the studies that did find an association between second or third trimester antipsychotic use and adverse outcomes, three had a lower number of exposed cases than the control group, suggesting a type II error. Further randomized controlled studies are needed to determine whether first trimester antipsychotic use is safe. With summer in full swing, it's time to hit the beach or pool with a few friends to celebrate the season. And to keep the fun going, Ikea has teamed up with Fiddlehead Brewery to create a pair of limited edition label towels and sippers. The label towels are the same design as the store's popular wheat beer bottles, featuring two embroidered miniature versions of the label designs. They can be purchased for \$21.95 each. Ikea The sippers are more affordable at \$14.95, but they are limited in quantity, so grab yours while you can. These sippers are made from 100% plastic and are available in two sizes: a tall glass for adults and a short one for kids. Ikea Ikea is known for its affordable home furnishings, but it's also known for being environmentally conscious and helping to keep our oceans clean. In fact, Ikea is so obsessed with protecting our oceans that it is not only committing to become
