PC Satellite TV BOX Crack Download [Mac/Win]

PC Satellite TV BOX is a software solution designed to help you watch online television with ease, using only your Internet connection. The application sports a rather simple and clean interface that helps the app get the job done, but it's recommended to pay attention to installation because it also attempts to drop some unnecessary software tools on your computer. Besides a toolbar, the installer tries to change the default search engine and home page in Internet Explorer, so it's better to follow all steps carefully and disable any third-party tools. PC Satellite TV BOX provides multiple channel categories, including business news, educational, entertainment, government, sports, music, movies, lifestyle, weather and shopping. Additionally, it boasts several webcam streams from all over the world. Although it comes with such a rich array of features, managing the channels is difficult, not only because there's absolutely no way to save a favorite station, but also because you can't sort them by country or by any other criteria. Plus, PC Satellite TV BOX doesn't provide a configuration screen, so there's nothing to customize about the application. On the other hand, PC Satellite TV BOX works pretty smooth and most of the links inside the app seem to work okay, but this also depends on your Internet connection. Overall, PC Satellite TV BOX is a decent tool to watch online television, but more configuration options, including a feature to save favorite channels, is a must have. **FREE 2MB-4GB SD STORAGE SPACE!** On our website, you can download any TV Channels that you like and watch them on your mobile device from a fully functional portable App. **NO DOWNTIME - WATCH LIVE** With our TV BOX Software, you are always able to watch live TV or record your favourite channels and play them back at any time. **DIGITAL CABLE STREAMING** With our TV BOX Software, you can now enjoy the digital streaming of all your favourite cable TV channels anywhere in the world. **RECORD/SAVE ON-LINE TV STREAMING** Watch live TV without wasting your data plan on your mobile device. Record and save your favourite channels to watch them offline. **WIDGETS** The widget is what makes this app so amazing. With it, you can get all your favourite channels on your mobile device from any app without having to open the app. **TV BOX LIVE!** Our innovative Smart TV Box Live feature allows you to watch TV

What's New in the?
