ZeusPOS Free [Latest 2022]

ZeusPOS is a complete system for restaurant, bakery and coffee shop. You can order and take payments from your customers in several ways. ZeusPOS allows you to place order from your main menu, from your printer or from your website. ZeusPOS is easy and quick, without coding knowledge, to install, configure and use. A lot of features are included: Simple and quick to use menus Users create their own menu templates to enhance their restaurant and bakery. You can manage them efficiently and easily, because they are not coded by you. They are in standard SVG format. Intuitive interface to place orders ZeusPOS can be accessed through a web browser, your website or your mobile phone (iPhone). The interface is very intuitive, with live order and payments. ZeusPOS can be downloaded as a zip file, and you can import the database of orders and payments from your POS software. Custom reports You can make your own orders and reports with simple reports and queries. There are 8 templates included to help you build your reports. Multilanguage support The interface is based on a database so it can be loaded with orders in any language. This feature is used to give customers around the world to choose the payment method that suits them best. Up to 5 stores You can manage your restaurants, bakeries or coffee shops from a single application. You can have 5 stores in your application, each store with own menu, own customers list, own orders and their own reports. Next order Customers can choose if they want to keep or cancel their order. They can confirm their order by booking it to make it real. You can even give the customer the list of their orders. Multiple domains Any domain can be linked to any store. You can add any number of stores with their own menus. Each store can link to different PayPal accounts. Purchases history ZeusPOS allow you to keep track of all your purchases, and even import the backorder list to make informed decisions. You can also make your own list of products in different sizes, for example, to know the number of packs you can order to make sure you can meet your demands. Easy payment solutions ZeusPOS has a lot of payment methods, including your standard cheque or credit card. You can also accept payments from your mobile phone with phone-book order or from your website with CCV2IP
