This all-new gameplay engine includes “FIFA Sensations,” a new 4K-quality, fully physics-driven cinematics engine that brings the players’ beauty and emotion to life, in a more realistic way. The game engine also supports 3D graphics and a variety of artificial intelligence and AI-powered play and tactics, depending on the difficulty level of the match. “The FIFA World Cup is the perfect stage for us to showcase our technology,” said Gavin Raikes, EA SPORTS Executive Producer. “The World Cup is a global event that brings millions of people together each year, and we can do the same with this new engine. It’s exciting to think of what we’re able to achieve by taking this data from players, and putting that into a video game. The technology has the potential to revolutionize the way we play, and we can’t wait to share it with everyone.” Speaking of FIFA Sensations, the new features include: The new cinematic engine allows fans and players to truly understand the emotions and stories that the game brings. In FIFA Sensations, directors can insert dramatic visual effects that bring the characters’ emotional arcs and motivations to life. Additional features include camera moves that allow players and fans to watch high-definition on-screen action from any angle in a whole new way. The new cinematics engine also supports unique player behaviors. Players can move, shoot, or react in different ways throughout the match. In addition to FIFA Sensations, gameplay features include: “FIFA Live Ultimate Team” – Players are able to develop an in-game squad with “FIFA Ultimate Team,” the best-selling football management game in the world. The fans can build and manage clubs in this world-class experience, and

EA SPORTS BIG UPDATES

- **Intelligent player movement** – All 450+ players from the new engine have dynamic on-field intelligence, controlled by an all-new artificial intelligence system. IntelliBall creates more accurate rotations, passes and shooting. We’ve also fine-tuned the way players perform aerially to improve their ability to receive and create shots.
- **Player-to-player intelligence** – The new engine provides improved player-to-player interaction to make the game more realistic and fun. Experience the head-to-head team battles that intensify as you fight for honours and glory.
- **Elite Skills** – Every skill can be mastered and perfected. Use new Elite Skills to create better shots, dribbles, and passes. With its new skills system, players learn new techniques as they progress through Career Mode.
- **Dynamic match physics** – The new engine gives players more control of the ball and the environment as they move at top speeds. Impact collisions are more accurate, and ground surface is more complex and realistic.
- **Air Dribbling** – The new engine can detect how players move the ball in the air and provide more accurate collisions in the air.

Players can even execute the move on the ground before launching themselves into the air. **WHAT'S NEW & NOTABLE:**

- Winner of the prestigious EA SPORTS GameAwards & E3 Game of the Year Award is back.
